

CASE STUDY

At Trafalgar Safety we proudly make our products right here in our Sydney factory for Australian conditions. Australian made manufacturing not only means the products are made to Australian standards, but we understand our customers and can customise our products to meet their needs, even favourite colours.

SITE BOX CUSTOM

THE CHALLENGE

Jonesy states "We have always used them (STORE SAFE Site Boxes) at work so I know it's great. When it came to storing my tools at home it was a no brainer; tough, anti-theft and even better, Australian Made".

"When I rang and spoke to Jac and told her my favourite colour was blue she said you could do my tool box in blue, so I ordered it. I knew you could do custom because the ones at work are red but didn't know you would customise just one."

THE DELIVERY

The Trafalgar Manufacturing division accepted the customisation challenge. They successfully powder coated the STORE SAFE site box the unique wedgewood blue shade for Jonesy.

The finished Custom Site Box in wedgewood blue waiting for pick up

PRODUCT

SS-S160-Custom

PROJECT SIZE

1200 x 850 x 750mm
