

Case Study

Key Safes:

A Secure Solution for Car Dealerships

Car dealerships face unique security challenges. Valuable cars and sophisticated security systems make them targets for criminals who steal keys instead of vehicles.

Key safes offer a cost-effective solution:

- **Enhanced Security:** Secure key storage deters theft and meets insurance company requirements, potentially lowering premiums.
- **Streamlined Operations:** Organized key management allows staff to quickly locate keys, improving customer service.
- **Reduced Risk:** Secure storage minimizes lost or misplaced keys, preventing unauthorized access and vehicle damage.

Thomson Automotive's Challenge:

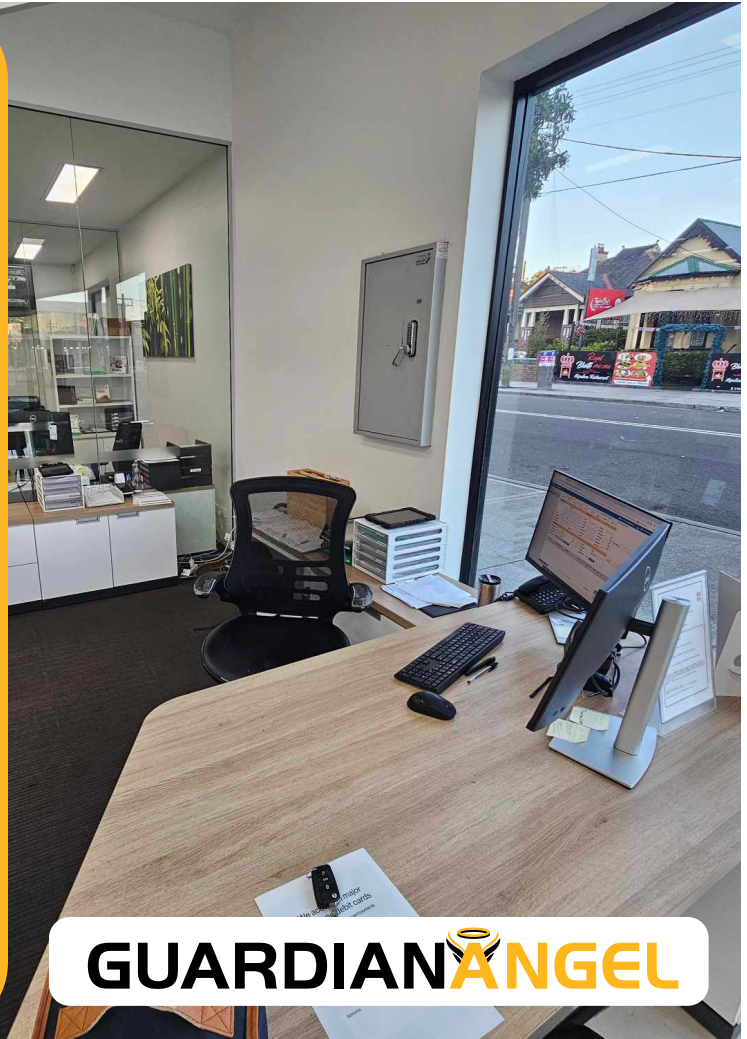

Thomson Automotive, with dealerships in Parramatta, needed a solution to manage keys for hundreds of cars. They required a key safe that met these criteria:

- **Insurance Compliance:** A solution that meets stringent compliance standards
- **Theft Prevention:** A key safe that offers protection against theft attempts, both opportunistic and premeditated
- **Operational Efficiency:** A system that enables quick and efficient key retrieval, streamlining daily operations
- **Risk Reduction:** Minimizes the risk of lost or misplaced keys, ensuring accountability and security.
- **Scalability:** Capacity to accommodate additional keys as the business grows, ensuring future scalability.

The Solution: Guardian Angel Key Safes

Thomson Automotive chose Guardian Angel key safes for their features:

- **Insurance Compliance:** Meets strict Australian insurance company requirements.
- **Enhanced Security:** Anti-theft features like a "monkey grip" and after-hours locking deter break-ins.
- **High Capacity:** Stores up to 120 keys.
- **Durable Construction:** 3mm security steel construction resists forced entry.
- **Dual Access Control:** Staff digital lock for quick access and a keylock for after-hours use.
- **Door Alarm:** Sounds if not properly closed within 50 seconds.
- **Modular Design:** T-slot panels allow for easy transport and customization.

GUARDIANANGEL

Benefits for Dealerships:

By implementing key safes, dealerships can:

- Lower Insurance premium
- Significantly enhance security.
- Streamline operations and improve customer satisfaction.
- Foster a more secure and efficient environment.
- Capacity to accommodate additional keys as the business grows,

The Solution: Guardian Angel Key Safes

"Guardian Angel Key Safes allow us to easily organize our keys and comply with insurance requirements. The beeping function ensures the door is locked and keys are secure."
