

FTPC PALLET RANGE

Material Handling Systems

The Series 90 Flexible Timber Pallet Converter Pallet Range is proudly Australian made, owned and fully-certified with over 40 years of proven design and durability. They provide increased storage, added security, a safer working environment, less manual handling, and a more environmentally friendly method of commercial and warehouse storage.

Stacking Angles

Key Features

Stackable

Stacking angles facilitate stacking whilst empty, while hinged gate and lid options enable locking and extra security.

Rackable

Pallets are designed to convert timber pallets into a safe and secure cage able to be stored in standard racking.

Transportable

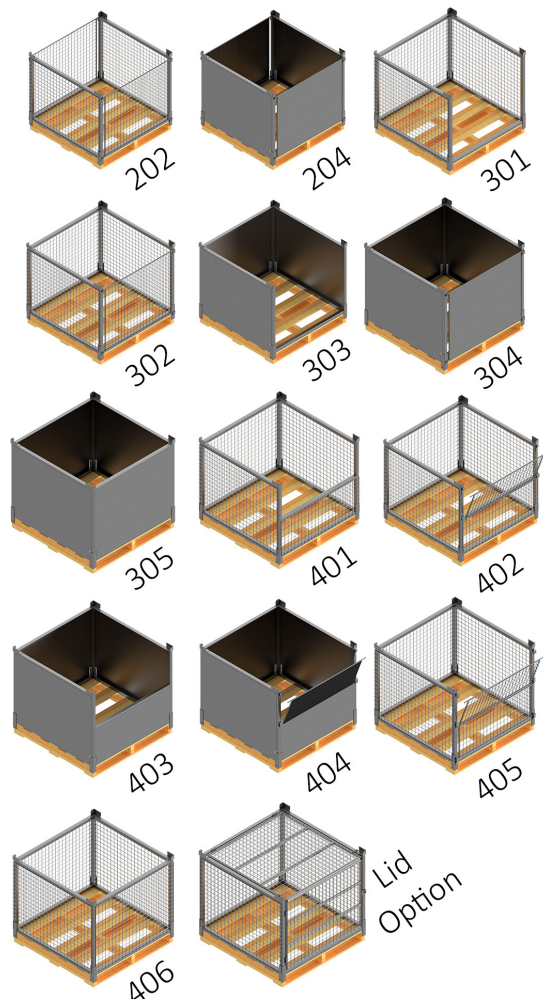

Space-saving and cost-effective with pallets engineered to fit side-by-side on 2.4m tray in freight.

Movable

Easier access to goods with pallets facilitating two-way fork or pallet jack access.

Series 90 FTPC Pallet Range

FTPC PALLET RANGE

Model 202

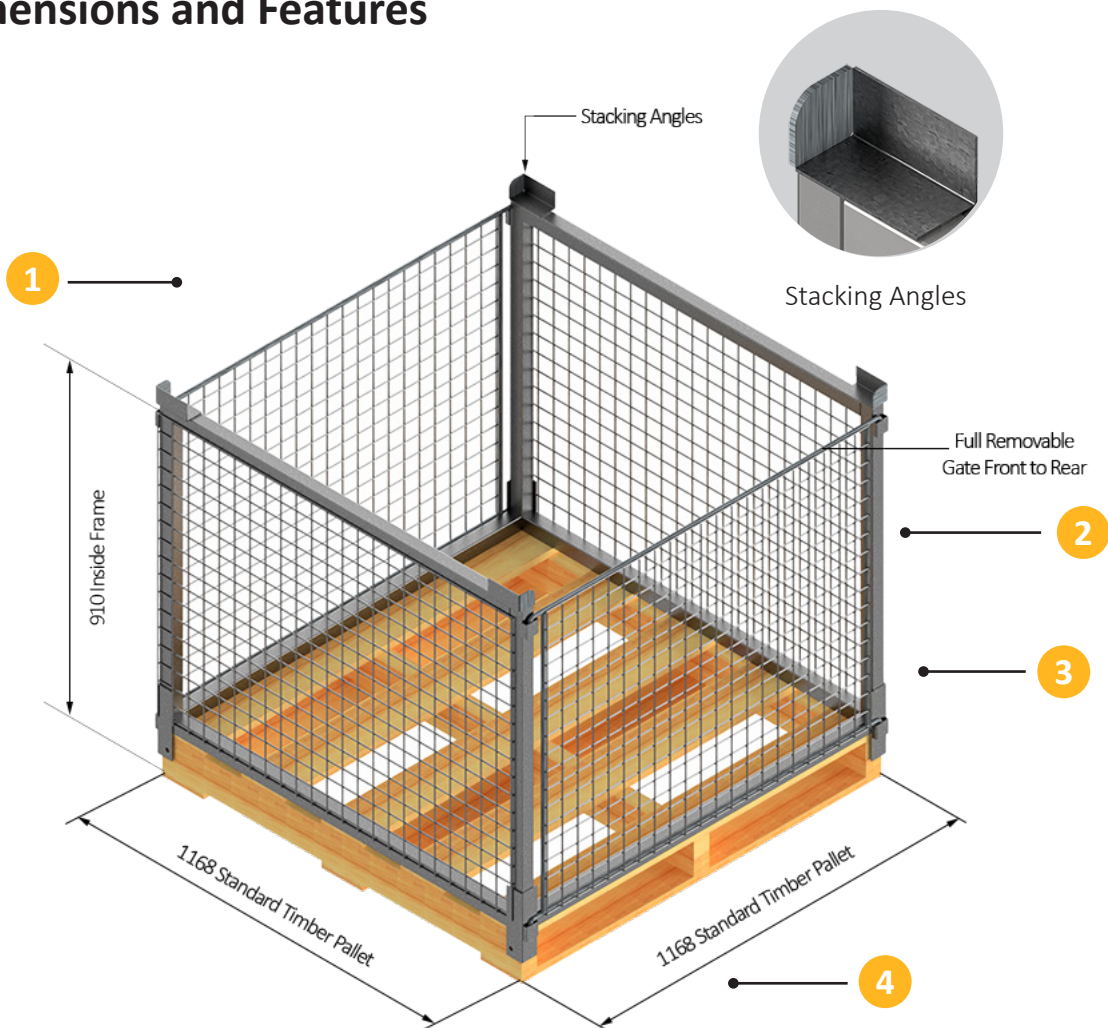

The Series 90 FTPC Pallet Range is a series of high-strength tubular framed containment pallet cages that are designed to fit over a standard Australian timber pallet. They offer a safe, secure, cost-effective, and environmentally friendly alternative to plastic wrapping. Custom heights, and supply and fitting are available upon request.

Technical Specifications

- 1 Pallet cage with secure sides, rear and gate
- 2 Full removable gate to front and rear
- 3 Sides, rear and gate clad with galvanised mesh
- 4 Unit Weight of 86kg
